

SAHM ALKARAR

Boldness that hits the mark.

Riyadh · Saudi Arabia

About the company

Sahm Alkarar Company is a Saudi group based in Riyadh, working in food, technology and contracting. We start with conviction, deliver with precision, and keep what we promise.

The name and the mark

Al-Karrar is the one who charges the objective and does not turn back; the arrow is precision in hitting it. From those two ideas came the name and the mark: a falcon, an arrow and a shield, standing for steady direction, strong protection and fast execution.

Divisions

Food

Sourcing and trading of food products: meat, sugar and staple goods, for government and private clients.

Technology

AI and business automation, IT and networking, cybersecurity and technology consulting. Home of the Istiqdam360 system.

Contracting

General contracting, project management and execution, and maintenance and operations to quality and safety standards.

Our principles

01

Conviction

We choose our direction carefully, then hold it until the result.

02

Precision

Measured quality at every stage, from sourcing to handover.

03

Commitment

Clear dates and measurable promises.
